

19th October 2007:

Nvolve highlighted as Enterprise Ireland High Potential Start Up

Nvolve from Donegal has been announced among the 76 high potential start-up companies (HPSU) by Enterprise Ireland's.

Led by Barry Harper, **Nvolve** was formed in 2004 to provide market leading training technology. The Nvolve Response™ solution enables groups of people to interact with software applications through the use of Nvolve's wireless keypads. Nvolve recently also won the regional final of the All Ireland Seedcorn competition organised by Intertrade Ireland's Equity Network.

The HPSU Showcase took place in Dublin recently. The showcase event is primarily a promotional opportunity for the start-up companies and their entrepreneurs and senior management teams. It celebrates their success in becoming part of Enterprise Ireland's prestigious HPSU class of 2006. The showcase event also provides a networking opportunity between Irish HPSU companies and the investment and venture capital community. Minister Micheál Martin, Minister for Enterprise, Trade & Employment was guest of honour on the day.

Over the past 7 years, there has been a substantial increase in the number of start-up businesses that are established annually with Enterprise Ireland's support. This trend reflects the success of the entrepreneurship supports and programmes that Enterprise Ireland provides throughout Ireland. During 2006, Enterprise Ireland supported a significant number of 'High Potential Start-Up' companies, from a broad range of sectors, locations and promoter sources.
